The ocean doesn't care if you're innocent.

NEW DSTLRY GRAPHIC NOVEL from **Stephanie Phillips** (LIFE, Daredevil) and **Marc Laming** (Star Wars, Red Sonja),
ENDEAVOUR is a chilling exploration of survival, innocence, and the monsters we become when the rules of civilization no longer apply.

A luxury voyage aboard a replica of the historic HMS Endeavour promises its wealthy passengers the adventure of a lifetime. But when disaster strikes, seven children are left alone aboard the drifting vessel, surrounded by an endless ocean and an increasingly uncertain future.

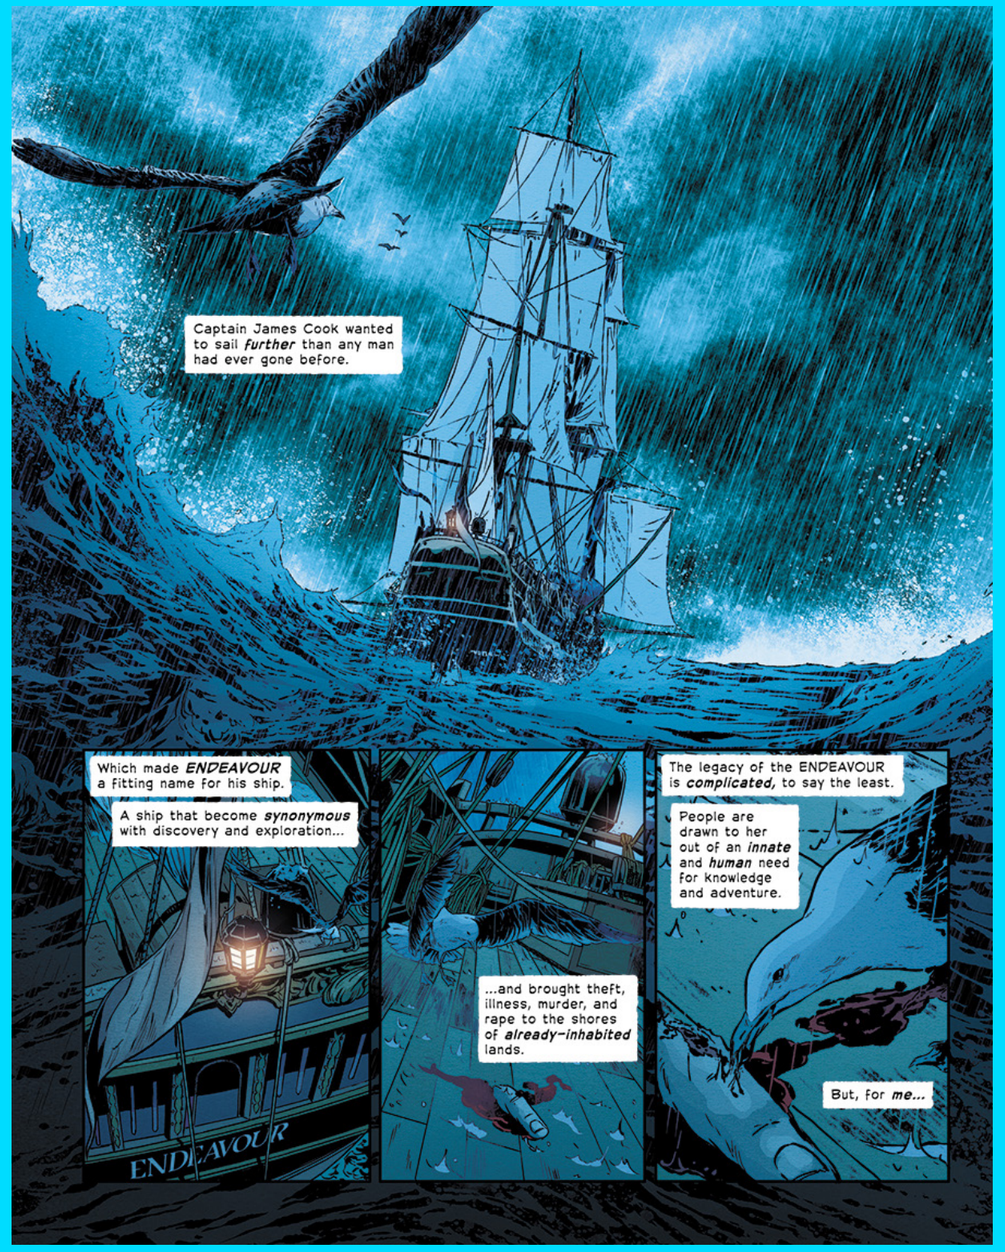

As supplies dwindle and desperation mounts, friendships fracture, alliances shift, and the fragile bonds holding the children together begin to unravel. With no one left to protect them—or protect them from one another—their struggle for survival becomes something far more terrifying.

Because the worst monsters aren't always hiding beneath the waves. Sometimes they're standing right beside you.

In the tradition of **LORD OF THE FLIES** and **YELLOWJACKETS**, **ENDEAVOUR** is an unflinching journey into the darkness that emerges when innocence is lost and survival becomes the only law.
